Forklift Safety Training Ottawa

Forklift Safety Training Ottawa - Individuals wanting work in businesses that utilize forklifts must undergo a forklift safety training course before becoming a certified operator of a forklift. There are a lot of ways to go about getting forklift safety training. Courses are provided through workforce training agencies, company forklift certification programs, and approved video and on line courses. The price can be minimal (or without charge) when offered by occupational safety officers on job sites or through employment agencies.

Forklift operators need to be 18 years of age or over, in nearly all countries. Local industry bodies approve forklift safety training courses and require operators to acquire a certificate before using this type of heavy machinery. A certificate is valid for four years in most areas. Businesses which hire staff to drive forklift trucks can face serious liability problems if operators fail to keep this certificate up to date.

Untrained forklift operators could result in serious injuries and property damage due to incorrect use of the machine. Training consists of the right driving and loading techniques. Workers must pass a written test to be able to be certified. A business would usually designate a supervisor to be able to provide hands-on training to new employees. A licensed supervisor must have extensive training in lift truck safety and be licensed as a trainer.

Those looking for work as forklift operators have alternatives for obtaining forklift safety training and certification. Lift truck training may be available through an employment agency or a workforce development agency. Those looking for work as lift truck operators could enroll in forklift safety training programs offered by an approved trainer at an independent location. Manual laborers may find much more job opportunities if they have forklift certification.

The Web provides another option for individuals seeking forklift safety training. Training is delivered via video and online formats. Nevertheless, certification usually requires that students write a test and take a forklift driving test.
